Matriculation (79.80%)

Projects

Blogging web App

[project1_link](#)

Technologies used : React JS, JS, CSS, Tailwind , React-router-dom(for routing), Firebase, firebase Authentication, firebase database, React-icons, React-toastify, and React-slick.

Created a Blog web-app where a user can Read, write, write comment on each blog and Like the Blog.

- Implemented pages for Login and Signup, Blog-card and Full Blog details with read more button, and create Link for Write a blog with Image.
- Important Functionality : Active Navbar, Routing on each Link, Comment on each blog, Like each Blog, Delete or Edit Option only for writer of blog. Delete comment only by comment writer or blog writer.

Weather App

[project2_link](#)

Technologies used : HTML, JS, CSS and Open weather API,

Constructed weather app which shows the current weather of cities. We also search city by name for see the weather.

- Fetch API and shows the data of API in website.

Templates

Designed some templates using HTML, CSS, AND JAVASCRIPT.

- Barber shop: <https://3-barber-shop.vercel.app/>
- Music Festiva: <https://2-bar.vercel.app/>
- Restaurent : <https://5-restaurent-templates.vercel.app/>
- Taxi : <https://taxi-project-eight.vercel.app/>
